

FROM SEED TO YIELD.

Insights from the week of: October 5, 2020

By WINFIELD UNITED

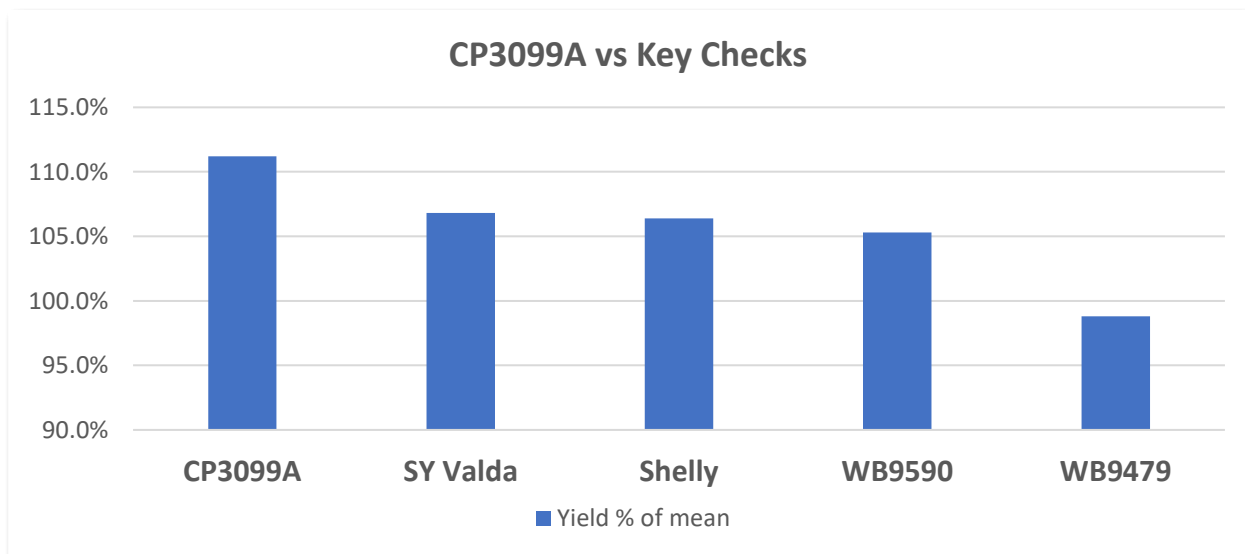

CP3099A Hard Red Spring Wheat

- This product brings unique genetics to the CROPLAN® lineup and the industry with European germplasm that delivers an awnless head
- Extremely high yield potential (113% of mean in 2019 and 111% in 2020 preliminary data) with lower, but acceptable protein
- Strong disease package on a very large plant type (almost double flag leaf size of CP3530)
- Big forage/dual purpose potential; large plant and big heads; harvest at early dough for maximum tons/quality
- Great standability at low populations (1.0-1.3 M seeds/a)
- 3099A is a full-season product that will help to capture maximum yield potential
