

FROM SEED TO YIELD.

Insights from the week of: September 21, 2020

CP3530 Hard Red Spring Wheat

- CP3530 is a year over year consistent variety that is showing great performance this year
- It carries excellent yield potential and is a strong protein variety
- Performs best at low-to-mid plant populations with good nitrogen management
- Good FHB with strong stem and leaf rust tolerance but still high Response to Fungicide in prior years' testing
- On highly productive soils, it carries high yield potential with acceptable standability for a taller plant when populations are moderated
