

FROM SEED TO YIELD.

Insights from the week of: November 16, 2020

By WINFIELD UNITED

CP4541XFS

- This product was tested in regulated trials within the Answer Plot® system.
- A stable variety that has a broad area of adaptation along with high yield potential.
- Rated excellent for stem canker, and emergence.
- Rated as an excluder for chloride tolerance, and sulfonylurea-tolerant (STS).
- Yielded within the same LSD as CP 4825X & CP4811XS at the Greenfield, TN Answer Plot trial.

CP4841XFS

- An attractive light tawny bean with above average standability.
- Rated excellent for stem canker, and emergence.
- Not recommended for fields with history of root-knot nematode (RKN).
- Best placed on marginal to productive acres; recommend managing population on highly productive soils to control height.
