

CROPLAN

By WINFIELD UNITED

25 SEASONS STRONG

FROM SEED TO YIELD.

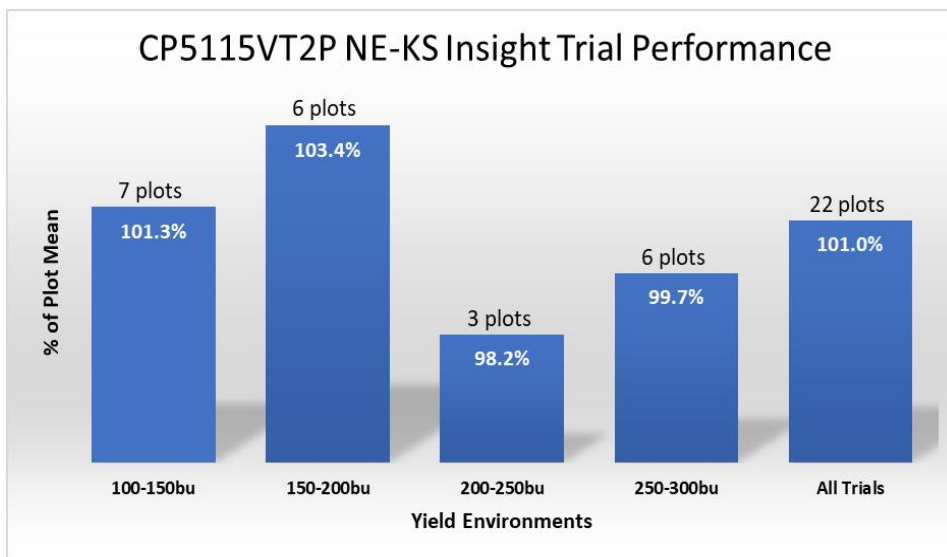

OBSERVATIONS FROM THE WEEK OF: DECEMBER 2, 2021

CP5115VT2P/RIB or SS *VT Double PRO* *SmartStax*

- 111-day hybrid for the tough acre with stable performance across all soil types and variable field conditions
- Semi-flex ear and high RTP can handle mod-high densities given strong stress tolerance, yet has enough ear flex for avg populations
- Excellent emergence and roots; strong stalks and drought tolerance
- Watch out: Goss's Wilt - avoid fields with history of high pressure
- Performance Tier hybrid for fields with mod- to- low yield potential; won't keep up with CP4930 or CP5073 on better acres
