

FROM SEED TO YIELD.

Insights from the week of: January 25, 2021

CP4188VT2P/SS/CONV

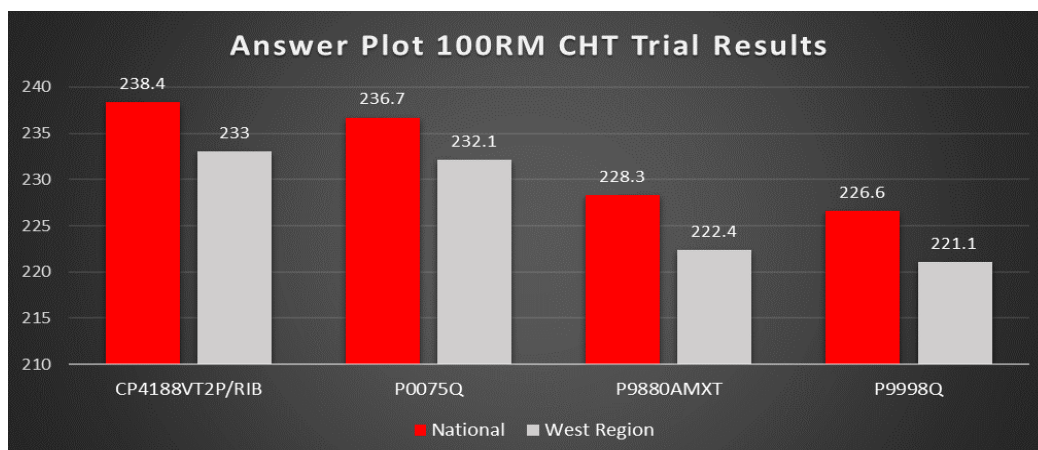

- CP4188 is a lead CROPLAN® hybrid in the 100RM maturity with VT Double Pro®, SmartStax®, and Conventional trait options
- Excellent emergence and root strength highlight the outstanding agronomic package that comes with CP4188
- Strong Goss's Wilt tolerance allows CP4188 to be used in fields that have Goss's high pressure
- Moderate RTN and RTP scores allow CP4188 to work in a variety of yield environments and management conditions and still have top-end yield potential
- With a semi-flex ear, this hybrid doesn't have to have high populations for yield potential; is a top 10 product for silage in National Answer Plot® silage testing at low populations
- #1 hybrid in the National and West Region Answer Plot® 100RM CHT Trials
 - Out-performed P0075Q by +1.7bu/A nationally and +.9bu/A* in the Western Region
