

# MAX-IN<sup>®</sup> Zinc

By WINFIELD UNITED

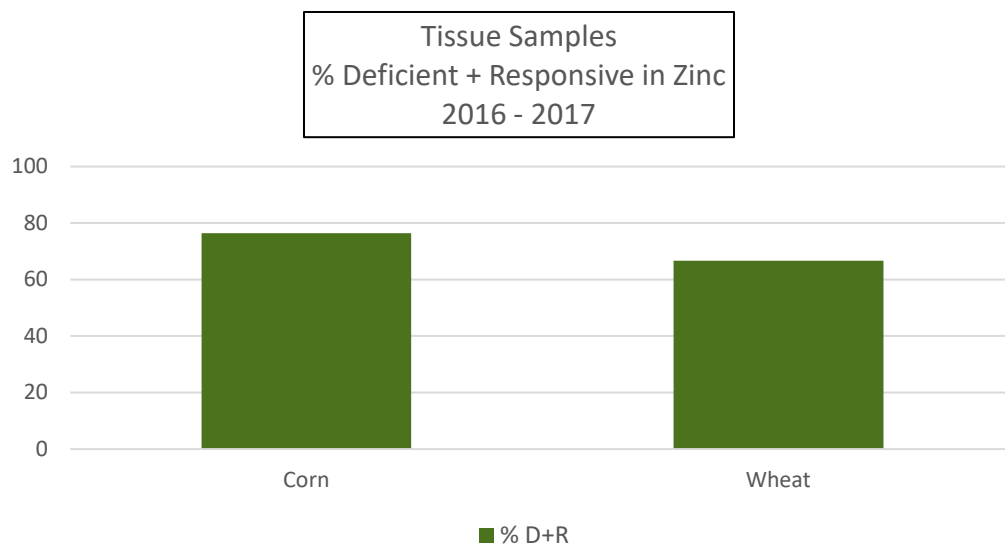

## The Next Generation of Foliar Nutrition

MAX-IN<sup>®</sup> Zinc micronutrient is an effective foliar-applied source of zinc that can be used on a broad-spectrum of crops.

### FEATURES AND BENEFITS

- Contains CornSorb<sup>®</sup> technology, a patented crop-based adjuvant system that helps increase nutrient uptake
- Can be tank-mixed with glyphosate to help limit trips to the field. The use of an AMS product like Class Act<sup>®</sup> NG<sup>®</sup> is always recommended when mixing with glyphosate.
