

Ascend[®] WSG

By WINFIELD UNITED

Water Soluble Granule Plant Growth Regulator

Ascend[®] WSG plant growth regulator (PGR) is easy to store and handle throughout the year. Its unique formulation is more concentrated than Ascend[®] SL PGR, with one pallet of Ascend[®] WSG covering three times more acres than a pallet of Ascend[®] SL PGR.

FEATURES AND BENEFITS

- More concentrated than Ascend[®] SL PGR, so it takes up less storage space
- Can be kept in unheated storage throughout the winter
- Water soluble granule formulation is easy to use as a seed treatment, and reduces seed load when compared to using Ascend[®] SL PGR
- Contains all the same benefits of liquid formulation of Ascend[®] PGR

Active Ingredients in Ascend[®] WSG

Cytokinin promotes cell division and leaf expansion.

Gibberellic acid stimulates cell division and elongation in leaves and stems.

Indolebutyric acid stimulates root formation and development, and increases cell elongation.

Seed Treatment Rates

RATE EQUIVALENTS	
Ascend [®] SL (Liquid)	Ascend [®] WSG (Granular)
1.05 fl. oz.	0.125 oz.
3.36 fl. oz.	0.4 oz.
6.3 fl. oz.	0.75 oz.
6.72 fl. oz.	0.8 oz.
10.5 fl. oz.	1.25 oz.

REGION
All

USE RATE[†]
In-furrow corn: 0.6-0.8 oz/A
Foliar: varies by crop
Seed trt: 0.1-0.6 oz/cwt

APPLICATION GUIDE[†]
See label for specific rates and timing by crop

ACTIVE INGREDIENTS[†]
0.76%: Cytokinin (as kinetin)
0.25%: Gibberellic acid
0.37%: Indolebutyric acid

PACKAGING
4 x 5-pound cases
