

Optify®

Premium Growth Promoter

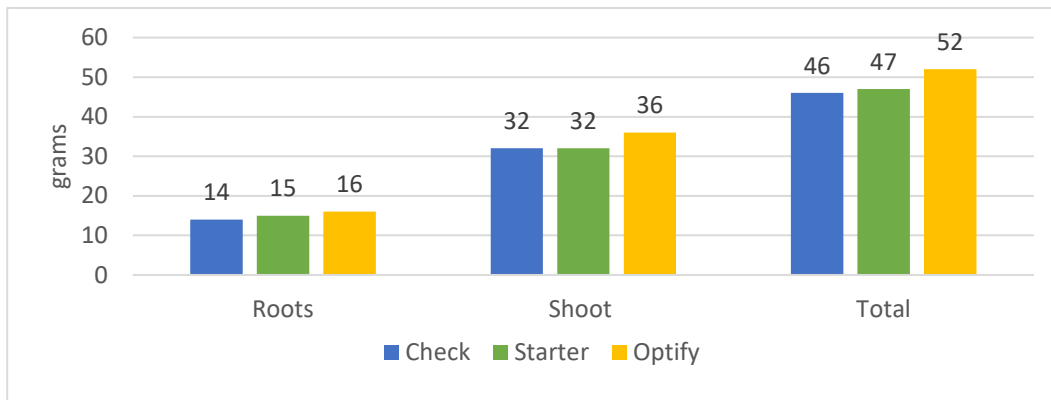

This broad-spectrum plant growth regulator (PGR) is designed to promote root growth, improve emergence and shoot growth, and help plants withstand stress in corn. This product can be used alone or in mixtures with other pesticide products.

FEATURES AND BENEFITS

- Helps improve germination and seedling development when used in-furrow on corn
- Designed to stimulate root and shoot growth when used in-furrow or foliar
- Aids in increased chlorophyll content
- Supports stress mitigation

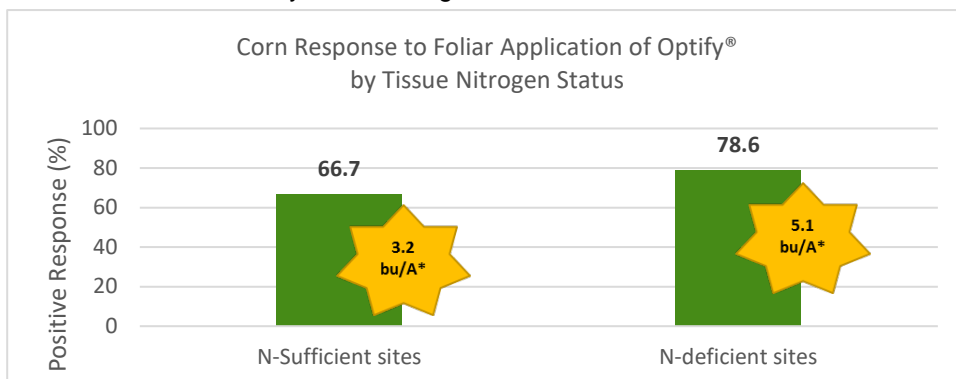

In-Furrow

When Optify® was applied in-furrow, corn growth at V3 resulted in increased roots and shoots, with an overall mass 6g greater than the untreated check.

Foliar

2015 Regional Answer Plot® data (27 locations) showed corn response to Optify® foliar treatments broken out by tissue nitrogen status.

REGION
All

USE RATE†
In-furrow: 5 fl oz/A
Foliar: 8 fl oz/A

APPLICATION GUIDE†
Can be applied in-furrow or foliar

ACTIVE INGREDIENTS†
0.018%: Complex Polymeric Polyhydroxic Acids (CPPA)

PACKAGING
2 x 2.5 – gallon
120 – gallon mini bulk

† Always read and follow product labels directions.
