

# Symbol™/Advance

Powered by **Take Off**™

## Foliar Fertilizer

Symbol™/Advance is a unique foliar fertilizer that helps optimize plant performance by providing supplemental nutrients plus Take Off® technology for improved nitrogen efficiency.

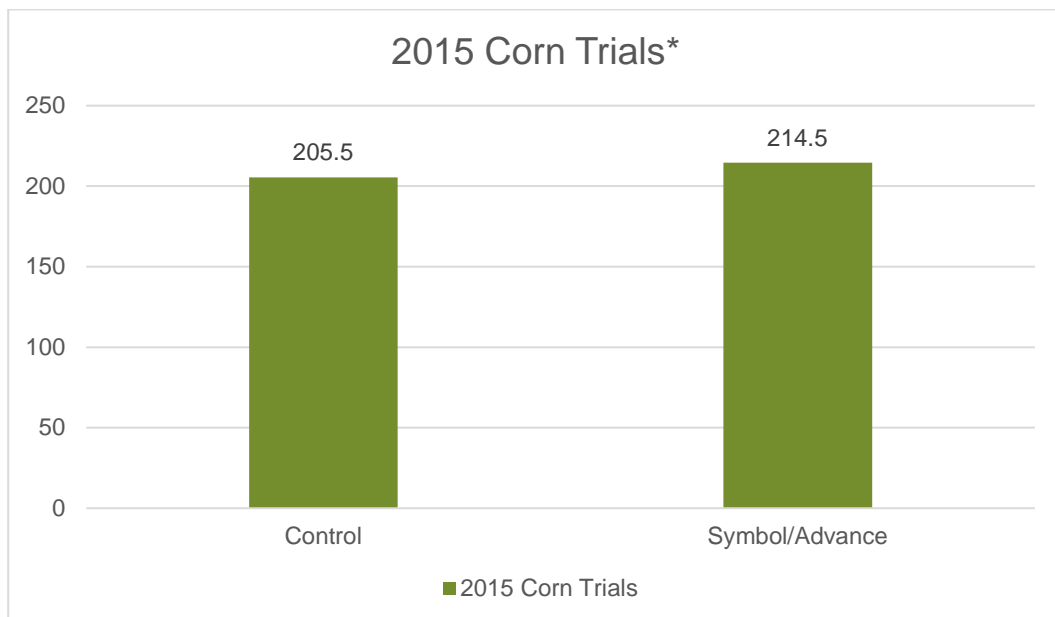

### FEATURES AND BENEFITS

- Take Off® technology is designed to improve nitrogen uptake and use, which can help improve plant health and stress tolerance.
- Nutrients provided are formulated for foliar application.
- Dry formulation mixes readily with many common pesticides, nutrients and adjuvants\*.

### How Does Take Off® Technology Work?

When the Take Off® molecule is absorbed by the plant, it can cause an increase in carbon dioxide (CO<sub>2</sub>) intake. Through normal plant processes, this increase in CO<sub>2</sub> helps trigger the plant take up more nitrogen via the roots.

### Results

**USE RATE†**  
Foliar: 1.0 lb/A  
Soil: 0.5-4.0 lb/A

**APPLICATION GUIDE†**  
Corn: V4-V10  
Soybeans: V3-R3  
Other: See label

**ACTIVE INGREDIENTS†**  
1.0%: Nitrogen  
15.0%: Potash (K<sub>2</sub>O)  
16.0%: Sulfur  
0.5%: Iron

**PACKAGING**  
25-pound bag

† See label for use rate by application type and crop. Always read and follow product labels directions.
