

Gradual-N[®]

By WINFIELD
UNITED

Safe Foliar Nitrogen

Gradual-N[®] macronutrients are formulated for crop safety while supplying high levels of nitrogen readily available for crop use.

FEATURES AND BENEFITS

- For use on a variety of crops
- Compatible with most other crop protection products
- Helps manage a crop's temporary nitrogen shortage
- Two formulations available:
 - Gradual-N[®] 30-0-0
 - Gradual-N[®] 25-0-0-0.5B

Formulations

Product	Pounds per Gallon
Gradual-N [®] 30-0-0	3.12 lbs N
Gradual-N [®] 25-0-0-0.5B	2.6 lbs N + 0.052 lb B

Precise Treatments

Tissue sampling and analysis with NutriSolutions[®] tissue testing just before key growth stages will help pinpoint nutrient deficiencies and recommend specific plant nutrients, so you apply what your crop needs.

Labeled Crops

Gradual-N[®] 30-0-0 and Gradual N[®] 25-0-0-0.5B macronutrients may be used with:

- Field crops: corn, edible beans, cotton, sorghum, soybeans, sugarcane
- Orchard crops: apples, citrus, pears, pecans
- Small grains: barley, oats, rice, wheat
- Turf grass
- Vegetable crops
- Some ornamentals

Gradual-N[®] 30-0-0 only:

- Ornamentals: including annual and perennial flowers, shrubs, vines, trees, large woody shrubs
