

# Amsol<sup>®</sup>/Plus

A liquid ammonium sulfate complex with a built in drift reduction agent that improves spray deposition.

## Benefits from using Amsol/Plus<sup>®</sup>:

- Increases the performance of any herbicide.
- Controls droplet size increasing retention on leaf surface.
- Increases absorption into the plant's phloem through the leaf cuticle.
- Decreases antagonism due to calcium ion mineralization
- Designed to be used with any herbicide that calls for AMS.

## Research with Polymer Based Drift Reduction Products

Amsol Plus is a trademark of United Suppliers, Inc.

### Application Window 1 & 2

Easy to use liquid AMS  
to maximize glyphosate  
performance and reduce drift.
