

Citri-Che®

By WINFIELD UNITED

Corrects Nutrient Deficiencies

Citri-Che® line of micronutrients are chelated with EDTA and citric acid to reduce nutrient tie-up in the soil and therefore increase nutrient efficiency and availability to plants.

FEATURES AND BENEFITS

Chelating agents in Citri-Che® micronutrients:

- Prevent deactivation of metal ion micronutrients to help keep products stable
- Help supply nutrients more efficiently
- Help increase tank-mix compatibility of Citri-Che® micronutrients with other products

Uses and Compatibility

As an additive in liquid fertilizer or for use in fertigation, Citri-Che® micronutrients offer flexible application options. These products are compatible with most plant growth regulators, herbicides, insecticides, fungicides and liquid fertilizers to help reduce trips in the field.

Product Line

Products	Formulation
Citri-Che® Copper 5%	5.0% Chelated Copper 2.0% Sulfur
Citri-Che® Crop Mix 2	1.0% Chelated Copper 2.0% Chelated Manganese 4.0% Chelated Zinc
Citri-Che® Iron 5%	5.0% Chelated Iron 3.0% Sulfur
Citri-Che® Manganese 5%	5.0% Chelated Manganese
Citri-Che® Zinc 10%	10.0% Chelated Zinc 6.0% Nitrogen
Citri-Che® Zinc 10% Complete	10.0% Chelated Zinc
