

Destiny[®] HC

By WINFIELD
UNITED

High Surfactant Methylated Soy Oil for Improved Performance of Herbicides

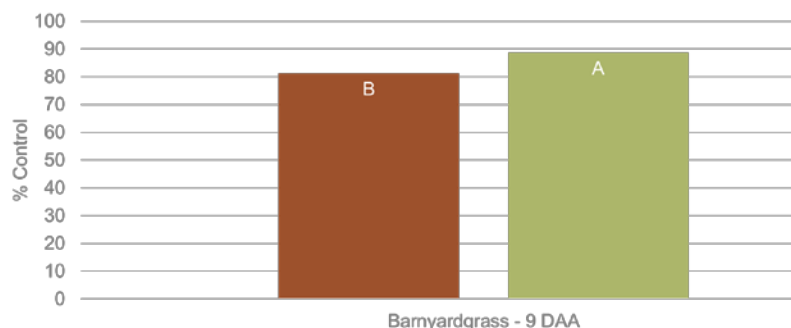

Destiny[®] HC adjuvant is designed to be compatible with glyphosate and contains CornSorb[®] additive for increased pesticide uptake and effectiveness.

FEATURES AND BENEFITS

- Helps herbicides perform when weeds are under stressful, hot, dry weather conditions
- Improves herbicide control at half use rates of standard MSOs

The Power of CornSorb[®] Additive

Destiny[®] HC adjuvant includes CornSorb[®] additive, which has been proven to increase humectancy for droplet retention leading to improved uptake of herbicides for better performance and less herbicide lost to environmental factors like evaporation.

Internal Research
River Falls, WI 2015

■ SectionThree[®] (2.67 fl oz/A + glyphosate (11 fl oz/A) + MSO 1% v/v
■ SectionThree[®] (2.67 fl oz/A + glyphosate (11 fl oz/A) + Destiny[®] HC 0.5% v/v

Means with the same letters are not significantly different

Application Rates

Label Rate for Oil Adjuvant	Equivalent Destiny [®] HC Adjuvant Rate
Rate per acre	
1 pint	0.75 to 1 pint
1.5 pints	0.75 to 1.5 pints
1 quart	1 pint to 1 quart
Percentage v/v per 100 Gallons of Spray Solution	
Percentage v/v	Rate per 100 gallons
0.25	1 pint to 1 quart
0.5	1 to 2 quarts
1.0	2 to 4 quarts

USE RATE[†]
See rate table.

ACTIVE INGREDIENTS[†]
Methylated soybean oil, high fructose corn syrup, sorbitan fatty acid esters: 92%
Constituents ineffective as spray adjuvant: 8%
Total: 100%
