

Tundra[®]

By WINFIELD
UNITED

Broad Spectrum Pest Control

Tundra[®] insecticide, with the active ingredient bifenthrin, protects a wide range of valuable crops against a broad spectrum of insects and mites. From planting to harvest, count on Tundra[®] insecticide for long-lasting, residual protection.

FEATURES AND BENEFITS

- Complements insect protection traits in seeds by controlling secondary pests at economical use rates
- Flexible application options. Apply by ground, air or chemigation and is compatible with many other pesticides, liquid fertilizers and MAX-IN[®] nutrients
- Effective, season-long control with long-lasting residual protection

Application Rate and Timing in Corn

Insect	Rate (per acre or 1000' of row)	PPI*	At-Plant	PRE*
Armyworm species	3 to 4 fl. oz./acre	X		
	0.15 to 0.3 fl. oz./1,000' 2.56 fl. oz./acre		X	X
Corn Rootworm larvae	0.3 fl. oz./1000'		X	
Cutworm species	0.15 to 0.3 fl. oz./1,000'		X	
Army	0.15 to 0.3 fl. oz./1,000'		X	
Black	3 to 4 fl. oz./acre	X		
	2.56 fl. oz./acre			X
Grubs	0.15 to 0.3 fl. oz./1,000'		X	
White	3 to 4 fl. oz./acre	X		
Seed corn beetle	0.15 to 0.3 fl. oz./1,000'		X	
Seed corn maggot	3 to 4 fl. oz./acre	X		
	0.15 to 0.3 fl. oz./1,000'		X	
Stalk borer	3 to 4 fl. oz./acre	X		
	2.56 fl. oz./acre			X
Wireworm	3 to 4 fl. oz./acre	X		
	0.15 to 0.3 fl. oz./1,000'		X	

*Field corn, seed crn and popcorn only

USE RATE[†]
Varies depending on specific crop and insect. See label for details.

ACTIVE INGREDIENTS[†]
25.1%: Bifenthrin
74.9%: Inert Ingredients
100%: Total
Contains 2 pounds bifenthrin per gallon

PACKAGING[†]
4x1 Gal
120 Gal
250 Gal
