

Ascend[®] Pro

By WINFIELD UNITED

Plant Nutrition & Performance
Plant Growth Regulator

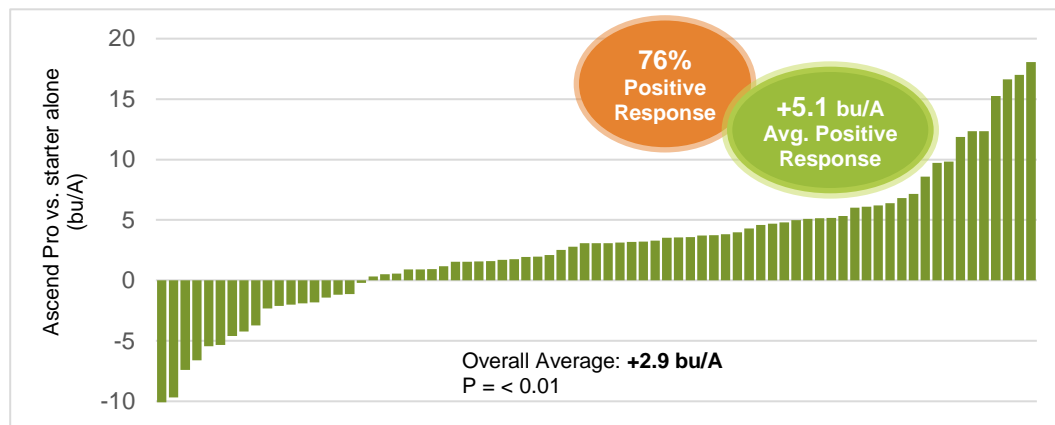

Consistency across varied environments

Whether conditions during planting are too cold, too wet, too warm or too dry, Ascend Pro PGR can help improve root growth and provide better early season vigor by delivering three PGRs in an enhanced, one-of-a-kind formulation. This formulation was specifically designed to provide more consistent performance across all environmental conditions.

FEATURES & BENEFITS

- Contains 3 plant growth regulators (PGRs) cytokinin, gibberellic acid and indolebutyric acid to help support cell division, leaf expansion and root formation.
- Enhanced formulation contains a proprietary amino acid derivative to help optimize performance across conditions, to help ease weather forecasting guesswork and worry.
- Researched across 153 site years over 4+ years to prove its consistent performance independent of weather conditions.
